

Respite Care

At Forrest House, we are delighted to offer quality care in a brand new, state-of-the-art facility recently constructed in January 2016. Our facility offers tangible support to carers and families, a much needed oasis of temporary relief through short-term respite.

Forrest House

Background

At Forrest House we have over 50 years' experience in the provision of care and support for individuals with Cerebral Palsy and other conditions resulting in similar care requirements.

We currently provide for all of the needs and aspirations of 7 adults who receive attention and support appropriate to their individual requirements, at our beautiful home at 311, Albert Drive, Glasgow.

To meet the needs of individuals who prefer to live in the community we also provide supported living accommodation for 3 adults in two purpose built flats in the Shawlands area of Glasgow, where they receive the same level of professional care as the residents of Forrest House.

When Forrest House first opened its doors, it was envisaged as a Respite Home to give much needed and welcomed respite to families and carers. We are delighted to launch our Respite Room in January 2016. This is a very exciting development for Rotary Residential and Care Centres.

The need for respite care is significantly high and care homes which have the facilities and trained staff with the expertise are in short supply in the Glasgow area. Forrest House is perfectly placed to meet this need and the new Respite Room will offer an invaluable service to families.

The Respite Room is tastefully furnished to the highest standard has an en suite, and is large and spacious.

Our Respite Care

We offer:

- ⇒ A personalised care plan for each service-user, based on a clear assessment of needs and a shared understanding of what is required, including health issues; level of care required and any specific requirements.
- ⇒ Quality care in a brand new, state-of-the-art facility constructed in January 2016.
- ⇒ A high level of care addressing physical, emotional, spiritual and social needs.
- ⇒ A qualified, skilled and committed team of staff.
- ⇒ Our service has achieved highly in the grading of Quality Indicators by the Care Inspectorate.

At Forrest House, we now have a **'home from home'** where residents can fulfil their ambitions and aspirations in an environment which is designed and adapted to their individual needs.

We have purposefully tried to move away from the typical 'residential home' model and feel we have achieved this in our design, décor and approach to caring.
